wall-paper! At first he meant to repaper the room, but afterwards he said that I was letting it get the better of me, and that nothing was worse for a nervous patient than to give way to such fancies. He said that after the wall-paper was changed it would be the heavy bedstead, and then the barred windows, and then

between the fire and the prisoners there is a raised way; and you will see, if you look, a low wall built along the way, like the screen which marionette players have in front of them, over which they show the puppets. I see. And do you see, I said, men passing along the wall carrying all sorts of vessels and statues and

For slab-on-grade construction in SDCs D1 and D2, when the conditions described above require an interior braced wall line to have a foundation, the foundation depth along that interior wall must be at least 18 inches below the top of the slab as shown in Figure 3-5. Figure 3-4 Interior braced wall on floor framing.
