connects China's past, its present, and its future. After almost 70 years of development, China has grown from a fledgling that had only just learned to fly, to a great bird, spreading its wings and soaring into the sky. The concepts of Chinese standards and "Made in China" are increasingly making their impact felt on the world stage.

The Hong Kong-Zhuhai-Macao Bridge - Future Fast Forward

Taking a look inside China's march toward becoming a sustainable superpower through innovation, China Fast Forward presents a balance sheet of the country's technological and social progress on its path to becoming a world leader.

China Fast Forward: The Technologies, Green Industries and

This is the presentation, as prepared in advance of delivery, by Mrs. LaRouche in Moscow to the 23rd International Academic Conference of the Institute of Far Eastern Studies of the Russian Academy of Sciences (RAS), Academic Council for Comprehensive Studies of Contemporary China, "China, Chinese Civilization and the World: Past, Present, and Future," which took place on October 24 and 25.

A Community of Mankind's Shared Future: Strategic

"China Fast Forward is the first book examining the underlying structure of whether China will become an innovative nation. Bill Dodson provides us with thorough research and insightful analysis on a topic that will define the future of China."

China Fast Forward: The Technologies, Green Industries and

Fast Forward reveals how the Russian avant-garde's race to establish a new artistic and social reality over a twenty-year span reflected an ambitious metaphysical vision that corresponded closely to the nation's rapidly changing social parameters.
