Puddle clay as a lining. Puddling is used in maintaining canals or reservoirs on permeable ground. The technique of puddling and its use was developed by early canal engineer James Brindley; it is considered his greatest contribution to engineering. This processed material was used extensively in UK canal construction in the period starting circa 1780. . Starting about 1840 puddle clay was ...

The ESM defines the minimum technical requirements for the design, fabrication, construction, commissioning, repair, and replacement of both new and existing systems, structures, and components (SSCs), including both maintenance and modification, for programmatic and facility work. They do not apply retroactively (forcing changes to existing SSCs that are not being touched).
