

cocaine abuse new directions pdf

Stimulants make people more alert, increase their attention, and raise their blood pressure, heart rate, and breathing. Stimulants come in a variety of forms, including amphetamines, cocaine, and methamphetamines. Prescription medications for attention deficit hyperactivity disorder (ADHD) are also often stimulants. Improper use of stimulants (other than when used as prescribed by a doctor ...

Dual diagnosis (also called co-occurring disorders, COD, or dual pathology) is the condition of suffering from a mental illness and a comorbid substance abuse problem. There is considerable debate surrounding the appropriateness of using a single category for a heterogeneous group of individuals with complex needs and a varied range of problems. The concept can be used broadly, for example ...
