constitution of the united pdf

The United States Constitution is the supreme law of the United States. The Constitution, originally comprising seven articles, delineates the national frame of government. Its first three articles embody the doctrine of the separation of powers, whereby the federal government is divided into three branches: the legislative, consisting of the bicameral Congress; the executive, consisting of the ...

The United Kingdom does not have a codified constitution like most other countries tend to have. Instead of a constitution, certain documents stand to serve as replacements in lieu of one. These texts and their provisions therein are considered to be constitutional, such that the "constitution of the United Kingdom" or "British constitution" may refer to a number of historical and momentous ...
