In this light, it is argued that an "archaeology of cremation" needs to be explicitly developed. To do this, what is required detailed methodologies (e.g., McKinley, 1994, 1997; Sigvallius, 2005) as well as a theoretical basis for understanding the character and the variability of cremation in the past mortuary practices. To this end, the paper aims at sketching the elements that will allow a theorized approach to be developed to the archaeology of cremation.

132 Review Feature Towards an Archaeology of the Contemporary Past Victor Buchli Department of Anthropology, University College London, Gower Street, London, WC1E 6BT, UK.

Towards an Archaeology of the Contemporary Past

One way of overcoming this paradox would be to emphasize an alternative trope of archaeology-as-surface-survey and a process of assembling/reassembling, and indeed to shift away from the idea of an "archaeology of the contemporary past" to speak instead of an archaeology "in and of the present".

Surface assemblages. Towards an archaeology in and of the

Towards a virtual archaeology - CAA 2018 Conference

What Frank would like to arrive at is a "theoretical archaeology of exo-civilizations," a goal that seems philosophical at best, but one which can be interestingly modeled through computer simulations. The Second Law of Thermodynamics gives us insights into the feedbacks that energy use and the production of waste have on planetary systems.

Toward An Archaeology of Exo-Civilizations

This Introduction to The Oxford Handbook of the Archaeology and Anthropology of Rock Art highlights a number of conceptual themes and issues that go to the heart of rock art research. Rock art research in the early twenty-first century is daunting in its complexity and scope due largely to major technological advances in digital recording and chronometric dating, the increasing employment of ...

Introduction: Towards an Archaeology and Anthropology of

Landscape is a theme with a long standing in archaeology. But whereas archaeologists in the 1960s analyzed the carrying capacity of the environment in order to measure human adaptation, since the 1990s landscapes are increasingly being "read" for understanding how people related to the land.
