The word "typography" has its origins in Greek the words "typos" (form) and "graphe" (writing). It's the art and technique that consists of arranging type with the purpose of making language more visible.

Design Theory: 5 Basic Principles of Typography - PIXEL77

Typography is the art and technique of arranging type to make written language legible, readable, and appealing when displayed. The arrangement of type involves selecting typefaces, point sizes, line lengths, line-spacing (leading), and letter-spacing (tracking), and adjusting the space between pairs of letters (kerning [1]).
