How It Works. As a dermatologist or office manager, you understand that there is a direct correlation between the proficiency of your staff and the efficiency of your daily workflow. You also know just how difficult it can be to find nurses and medical assistants who possess the unique educational skill set needed to excel in our specialty.

The reliability of Wikipedia (predominantly of the English-language edition) has been frequently questioned and often assessed. The reliability has been tested statistically, through comparative review, analysis of the historical patterns, and strengths and weaknesses inherent in the editing process unique to Wikipedia. Incidents of conflicted editing, and the use of Wikipedia for 'revenge ...

The siren of the famous Starbucks logo is intended to represent the seductive power of coffee, with her hair tastefully covering any hint of immodesty.

14 Freshly-Brewed Facts About Starbucks | Mental Floss

Human immunodeficiency virus infection and acquired immune deficiency syndrome (HIV/AIDS) is a spectrum of conditions caused by infection with the human immunodeficiency virus (HIV). Following initial infection, a person may not notice any symptoms or may experience a brief period of influenza-like illness. Typically, this is followed by a prolonged period with no symptoms.
