shivered all night and it wasn't much better during the day. I had spent the previous five days in a cell in a monastery, a sort of hole in the wall that must have dated from the middle ages: since there were a lot of prisoners and not much room, they locked us up anywhere.

## Jean Paul Sartre - "The Wall"

Mom had dumped all the plastic packets of soy sauce and duck sauce and hot and spicy mustard from the table into her purse. Now she emptied a wooden bowl of dried noodles into it as well. "A little snack for later on," she explained. We ordered. Mom chose the Seafood Delight.

Gravity walls are the earliest known retaining structures. They are built from solid concrete or rock rubble mortared together. The lateral forces from backfill is resisted by the weight of wall itself, and due to their massive nature, they develop little or no tension. Therefore, they are usually not reinforced with steel.

SHEAR WALLS This section provides an introduction to shear walls and how they resist earthquake and wind forces. This section also shows how to properly construct the shear walls and the parts that make them up. With this knowledge, contractors can build proper shear walls and inspectors can recognize the errors untrained contractors make.
