Winged Shield, Winged Sword: A History of the United

Throughout its first century, military aviation helped advance the interests of the United States. From a curiosity, fragile and of uncertain value, the warplane has become a devastating weapon. Moreover, ballistic missiles and surveillance satellites have joined aircraft in this aerial array. In these two volumes, the authors try to describe and analyze, in the context of national policy and ...

winged obsession | Download eBook PDF/EPUB

Describes and analyzes, in the context of national policy and international rivalries, the evolution of land-based air power since the United States Army in 1907 established an Aeronautical Division. Provides a clearer understanding of the central role of the Air Force in current American defense policy.
